

Journal of Oral Science

CONTENTS

Original

- In vitro* evaluation of the dissolving effect of solvents on root canal sealers**
Ali Erdemir, Necdet Adanır and Sema Belli123
- The effects of extracts from periodontopathic bacteria on human periodontal fibroblasts stimulated with mineralization supplements**
Symone Marquez-San Miguel, Stefan Rupf, Jochen Frenzel and Klaus Eschrich127
- Cyclopiazonic acid discharges intracellular Ca²⁺ stores and stimulates Ca²⁺ influx in cultured human gingival fibroblasts**
Hiroko Matsumoto, Reiri Takeuchi, Takafumi Arai, Naoto Sato, Yoshiaki Akimoto and Akira Fujii139
- Characterization of the gene encoding 200-kDa *Porphyromonas gingivalis* protein that reacts to sera from periodontitis patients**
Midori Ema, Mitsuo Hayakawa, and Yoshimitsu Abiko145
- Efficacy of 'Gamadent' toothpaste on the healing of gingival tissues: a preliminary report**
Tara Bai Taiyeb-Ali, Siti Lailatul Akmar Zainuddin, Dasan Swaminathan and Hashim Yaacob153

Case report

- Oral candidosis in Non-Hodgkin's lymphoma: a case report**
Chong Huat Siar, Kok Han Ng, Salik Rasool, Saravanan Ram, Ajura Abdul Jalil and Kee Peng Ng161
- Pemphigus vulgaris and complications of systemic corticosteroid therapy: a case report**
Elif Eser Sakallioğlu, Gokhan Acikgoz, Gonca Keles, Nilgun Senturk and Filiz Karagoz165
- The location of the mental foramen in a selected Malay population**
Wei Cheong Ngeow and Yusof Yuzawati171
- Panoramic radiography as an auxiliary in detecting patients at risk for cerebrovascular accident (CVA): a case report**
Flávio Ricardo Manzi, Frab Norberto Bóscolo, Solange Maria de Almeida and Francisco Haiter Neto177
